together"*

World Class Surgery Packages,
with a holiday!

Sun, Sand and a Spectacular Smile

CAN'T AFFORD TO SWALLOW THE COST OF HAVING THOSE
PERFECT TEETH YOU'VE ALWAYS DREAMED OF?...THINK AGAIN

As world leaders in Medical Tourism, Restored Beauty Getaways strive to ensure their clients have access to some of the best clinics, hospitals, surgeons and specialists in the world.

Already sending many clients away for cosmetic and eyesight procedures, Restored Beauty Getaways are experiencing an increase in numbers opting to have dental work done overseas. Not only are the costs less than 1/3 of the comparative cost in NZ, but the clinics that Restored Beauty Getaways are partnered with, are world leaders in technology. Now in under 2 weeks you can return home with a single implant or a full set of top and bottom implants. This revolutionary process is very specialised and does not require the standard 3 month wait between treatments. Utilising the "all -on 4" or "all on 6" Nobel process with 'immediate loading', 95 % of bone density issues can be worked around without the need for bone grafts - and at a fraction of the cost to traditional implants in NZ. Combine all if this with a holiday by the beach, pampering in the resorts and spa's and bargain shopping in the markets - WHO SAYS HAVING DENTAL WORK DONE IS NOT FUN?

With a great smile being one of your most important assets, you no longer need to be embarrassed to smile because your teeth need whitening, straightening or replacing. No longer hold back a part of your personality. Contact the Restored Beauty Getaways team so they can tailor make a package especially for you or include you in one of their escorted group departures.
